LinkedIn: <https://uk.linkedin.com/in/anguspearson>

DoB: 1995-02-18

Nationality: British & Australian

## Education

2013-2017 BSc Hons Computer Science, University of Edinburgh

*Currently studying*

2011-2013 A Levels, Pangbourne College

*Mathematics* A

*Chemistry* A

*Physics* B

## Work & Experience

2013-present Tardis Project systems administrator

*The project is a long running student-led systems and network administration 'sandbox' with roughly 760 registered users. Administration involves hardware management, virtualisation, networking, service deployment and maintenance. Since beginning work on the project a full migration onto new hardware has been completed.*

<http://wiki.tardis.ed.ac.uk>

Dec 2014 - Full Stack Web Freelance, GPB Consulting Ltd. (Content Analysis Web Application)

Jun 2015 *Development of a Natural Language processing (NLTK) and Python backend, deployed on Heroku. The web app provides a set of market-leading measures of written content readability and complexity, used by the company in providing reports for clients. It is to my knowledge the most complete collection of these metrics on the web.*

Sept 2014 - CompSoc President (Edinburgh University Computing Society)

May 2015 *This position included the organisation of two large hackathons, 'Hack the Burgh' (Major League Hacking) and 'The Smart Data Hack', as well as event management, financial management, logistics, marketing and sponsorship negotiation with companies including Google, Microsoft, Amazon DCS, Bloomberg and Accenture.*

2014-present	<p>Edinsolar - University of Edinburgh Solar Car Project Firmware team lead</p> <p><i>Initially I was on the Web Team and developed the frontend of the project website. Current roles include firmware team management, co-operation with the Electrical and Business teams, developing firmware for the vehicle's control systems, and development of any design or logistical software required.</i></p> <p><a href="http://edinsolar.org">http://edinsolar.org</a> – <a href="https://github.com/EdinSolar">https://github.com/EdinSolar</a></p>
Jun 2014 - Sept 2014	<p>Front-end Web Freelance, Diamond Minding Ltd.</p> <p><i>I developed a website for the company to help them grow their business and present their services. Note that the site has been handed over but is undeployed as the company is not currently operating.</i></p> <p><a href="http://diamondminding.github.io">http://diamondminding.github.io</a></p>
2012	<p>Arkwright Scholar at Stannah Lifts Group</p> <p><i>The scholarship included a 2 week internship where I developed a MP3 backed electronic sounder for a lift, that allowed sound profiles to be easily loaded via a SD card. This extended the functionality of the existing system which only produced a couple of tones to indicate state.</i></p> <p><a href="http://www.arkwright.org.uk/">http://www.arkwright.org.uk/</a></p>
2011-2012	<p>Full Stack Web Freelance, GPB Consulting Ltd. (Main Company Site)</p> <p><i>Development of a WordPress site for the company, with some extended functionality to handle monthly Journal publications.</i></p> <p><a href="http://www.gpb.eu">http://www.gpb.eu</a></p>

## Relevant Skills

### PROGRAMMING LANGUAGES

C, Haskell, Python, HTML5, CSS3  
*Confident, multiple coursework assignments and own projects*  
 Java, PHP, C++  
*Fairly confident, multiple coursework assignments or previous work*

### OTHER

Linux System Administration  
*Confident, daily use*  
 Basic digital electronics, Verilog (Hardware Description Language)  
*Fairly confident, Coursework and personal time*

## Extracurricular

Completed the DofE Bronze award, and am planning on competing the Gold award.

I'm a member of the Edinburgh Uni SnowSports club, EUSSC's Ski team.
